

# Scottish Field Archery Association

## Notification of Intention to Shoot Outside Scotland

“The liability cover that is provided to the Scottish Field Archery Association and its affiliated members operates in respect of negligence arising from activities that are recognised and/ or approved by SFAA.

Members must be acting under the guidelines, rules and procedures of SFAA at all times in order for the cover to apply. Failure to do so may result in cover being excluded if a member is deemed to be operating outside the association ‘environment’.

In respect of competitions abroad, a member must be travelling on the approval of SFAA. It is therefore imperative that members advise the association of their intention to travel to participate in a competition. As per the comments above, cover may be void if a claim is subsequently brought against the member in respect of an activity in which they were participating, where the association is unaware of the members attendance.”

Perkins Slade 7<sup>th</sup> October 2008

For the purposes of insurance, ‘abroad’ is defined as outside the UK and Island of Ireland.

**For SFAA members taking part in shoots organised by UK or Island of Ireland IFAA affiliates no form is required and SFAA insurance is automatically extended. Members shooting outside Scotland are subject to the same terms and conditions applied, by the insurer, when they shoot within the SFAA ‘environment’.**

Please complete this form **in advance** and return by post or email to the Secretary at the address below.

The SFAA will respond confirming their agreement or otherwise to extend the SFAA insurance to cover the member at the event noted below. For your own benefit, you should ensure you have the SFAA response prior to taking part.

One form must be completed for each archer.

<b>Archers name:</b>	<input style="width: 95%;" type="text"/>
<b>Archers Club:</b>	<input style="width: 95%;" type="text"/>
<b>Shoot details:</b> <i>Competition name</i> <i>Hosting association</i> <i>Venue</i> <i>Country</i>	<input style="width: 95%; height: 100%;" type="text"/>
